SES Oil Pan Gaskets

Silicone Elastomer Molded over a Solid Steel Core

You can't buy a better sealing solution at any price

AFA SES Oil Pan Gaskets:

- * Silicone elastomer sealing surface is pliable, durable and dimensionally stable
- * Double bead locks in oil, locks out contaminants
- * Low compression set adjusts for all operating conditions
- * Steel core for best fit and easy installation
- * Stable in extreme operating temperatures
- * Anti-crush inserts where required

Quality, Not Cost Driven:

Some of our large corporate competitors have conceded to the pressures of investors and bottom line profits at the expense of premium quality products. AFA believes this is a compromise that is unacceptable in Heavy Duty Engine Replacement Parts. We Remain dedicated to maintaining the same standards of excellence that have gotten us to where we are today - Quality, Quality, Quality.
