

**AFA CATERPILLAR® NEW MOLDED  
SILICONE RUBBER VALVE COVER GASKET**

AFA Industries is pleased to announce the availability of a new Molded Silicone Rubber Valve Cover Gasket for Caterpillar® 3304 engine applications. This is a brand new proprietary AFA design gasket. This gasket is designed for high-heat applications including Natural Gas engines. It uses steel grommets in the bolt holes to avoid crushing the gasket during installation. AFA offers this in addition to our complete offering of high quality, durable engine parts for Caterpillar 3304 engines.

**AFA Part No. 8S1606R** is in stock and available.

Also available are Engine Kits, Valve train parts, Water and Oil pumps, Cooling System Components, Fuel System Components, and other engine parts to help you repair most components for most Caterpillar® engines. Contact your local sales representative or AFA Certified Distributor for more information.

**Total System Engineering** - In 1987, AFA Industries started manufacturing OE and Aftermarket sealing products. Since then we have expanded into a global engine parts manufacturer with an extensive system of quality control and inspection that is second to none in the industry. Our technology is always state of the art. Materials used in our parts are always OE quality or better. Our manufacturing methods are constantly monitored for consistency and efficiency. The results are products that will meet or exceed the expected life cycle of any heavy duty diesel engine in any application - guaranteed.

Consult your OE reference materials for exact applications.  
Refer to the OEM service manual for proper engine assembly procedures.
