AFA offers the most up-to-date parts and kits for the repair of
Cummins ISX/QSX series engines.

AFA's in-house manufacturing and packaging capabilities to produce this type of kit, allow us to use the highest quality materials and has made us a leading manufacturer of gaskets and seals in the commercial vehicle engine parts business. Combined with our staff of engineers, technical product and customer service personnel, you can depend on AFA for all your commercial vehicle engine parts needs.

AFA offers a complete line of parts for a variety of Caterpillar®, Cummins® Detroit Diesel® & Navistar® engines, including In-Frame and Complete Overhaul kits, Cylinder, Valve Train, Water and Oil pump, Cooling System, Fuel System, and other parts to facilitate most engine repairs.

Consult your OE reference materials for exact applications.

Refer to the OEM service manual for proper engine assembly procedures.

Contact your local sales representative or AFA Certified Distributor for more information.
