AFA CATERPILLAR® CYLINDER HEAD SPACER PLATE

AFA Industries is pleased to offer the newest design CYLINDER HEAD SPACER PLATE for the Caterpillar 3406E, C15, some C16 & C18 engines. This spacer plate is in stock and available to ship today. This plate is the exact dimension and material for these engines.

AFA's spacer plates are manufactured in state-of-the-art OEM manufacturing plants, using the highest grade of steel so that there is no chance of failure when torqued to the proper specification.

- The spacer plate performs an important function on the engine block and is designed to reduce stress on the cylinder liner flange eliminating the possibility of the liner flange cracking.
- The combination of AFA's cylinder head spacer plate and head gasket components and cylinder liners offer the best sealing available for the Caterpillar 3406E, C15, some C16 & C18 engines.

Also available are In-Frame and Complete Overhaul Kits, Valve train parts, Water and Oil pumps, Cooling System Components, Fuel System Components, and other engine parts to help you repair most components for most Caterpillar® engines.

Total System Engineering - In 1987, AFA Industries started manufacturing OE and Aftermarket sealing products. Since then we have expanded into a global engine parts manufacturer with an extensive system of quality control and inspection that is second to none in the industry. Our technology is always state of the art. Materials used in our parts are always OE quality or better. Our manufacturing methods are constantly monitored for consistency and efficiency. The results are products that will meet or exceed the expected life cycle of any heavy duty diesel engine in any application – guaranteed.

Consult your OE reference materials for exact applications.
Refer to the OEM service manual for proper engine assembly procedures.
Contact your local sales representative or AFA Certified Distributor for more information.
