

AFA Detroit Diesel® Series 50/60 Turbocharger Seal Kits

We are pleased to announce the availability of a two new TURBOCHARGER SEAL KITS that include all the necessary seal, gaskets, o-rings required for replacing the Turbocharger on DETROIT DIESEL® SERIES 50 & 60® engines. The parts in each of these kits are prepackaged in installation-ready sets that speed location and identification at each step of the repair process - an AFA unique technician-friendly packaging feature. AFA offers the most up-to-date parts and kits for the repair of Detroit Diesel 50/60 series engines.

Part numbers AFA-S60TK-B (Brown O-ring) and AFA-S60TK-O (Orange O-rings) are available and in stock now.

AFA's specialized manufacturing and packaging capabilities enable us to produce these user-friendly kits. As with all of our products, our use of the highest quality materials and state-of-the-art manufacturing processes have made us a leading producer of gaskets and seals in the commercial vehicle engine parts business. Combined with our staff of engineers, technical product and customer service personnel, you can depend on us for all your commercial vehicle engine parts needs.

AFA Industries has a complete offering of engine parts for Caterpillar®, Cummins®, Detroit Diesel® & Navistar® engines to rebuild most everything on the engine. Also available are In-Frame and Complete Overhaul engine kits, Cylinder, Cooling System, Valve Train and Fuel System Components, Water and Oil Pumps, as well as many other engine parts to enable you to repair most of these manufacturer's engines.

Consult your OE reference materials for exact applications.

Refer to the OEM service manual for proper engine assembly procedures.
