

NEW OIL PUMP FOR CUMMINS® ISB/QSB ENGINES

NEW OIL PUMP FOR CUMMINS® ISB/QSB ENGINES

AFA is pleased to announce the availability of a new Oil Pump for the Cummins ISB/QSB Series engines.

AFA Part Number A4988801 is available and in-Stock!

This oil pump is manufactured with CAD/CAM designed machined tolerances. Our design is guaranteed to be the highest quality oil pump available for the ISB/QSB engines. The proprietary casting process guarantees porous-free castings within OEM specified tolerances.

AFA Industries has a complete offering of engine parts for a variety of other Cummins® engines to rebuild or repair most everything on the engine. Also available are Cylinder Components, Valve Train parts, Water Pumps, Cooling System Components, Fuel System Components, In-Frame and Complete Overhaul Kits, and other engine parts to help you repair most components for the ISB/QSB Series engines as well as most all Cummins engines available.

Consult your OE reference materials for exact applications.

Refer to the OEM service manual for proper engine assembly procedures.

Contact your local sales representative or AFA Certified Distributor for more information.
